The **new**
generation
enhanced
calcium Rx 

Bonegro

TABLETS

Calcium Citrate Malate 250mg
+ Vit. D3 100IU + Folic Acid 50mcg

Eliminates Osteoporosis & Fracture Risk

Calcium Citrate Malate

- More absorbable than calcium carbonate and is well absorbed regardless of stomach acid
- Prevents or ameliorates bone loss more effectively than calcium carbonates
- Decreases bone fracture risk in the elderly, slows the rate of bone loss in old age¹

Vitamin D3

- Decreases bone turnover and increase bone mineral density

Folic acid

- Absorption diminish in elderlies, therefore supplementation becomes important

INDICATED IN

Osteoporosis | **Osteomalacia** | **Pregnancy & Lactation**

1. Adv Food Nutr Res. 2008;54:219-346

**Stronger body &
Healthy bones with...**

Bonegro

SUSPENSION

Calcium Carbonate 250mg + Magnesium Hydroxide 75mg + Zinc Gluconate 2mg + Vitamin D3 200 IU

A **boost** for **active growth** in children

- Essential for normal functioning of nerves, cells, muscle and bone
- Prevents bone loss, reduces fracture risk
- Important for the absorption and functioning of calcium
- Increases bone mineral density

Indicated in:

Rickets **Osteomalacia**

Calcium Deficiency

When urticaria makes
days uncomfortable

Rx
Clarinase
Montelukast 10mg + Desloratadine 5mg **TABLETS**

MAKES DAYS **COMFORTABLE**

- Provides superior efficacy than either drug alone¹
- Effective in the treatment of Chronic Urticaria²
- Prevents the inflammatory flare following the transient allergen exposure³
- Reduces the average use of topical decongestant rescue medication

Indicated in:

Chronic Urticaria

Seasonal Allergy

Persistent Allergic Rhinitis

1. JACI, October 2005, Volume 116, Issue 4, Pages 768-772

2. Clin Exp Allergy. 2004 Sep;34(9):1401-7

3. Expert Opinion on Pharmacotherapy Volume 10, 2009-Issue 15

One **Powerful Pair, Countless Allergy Solutions**

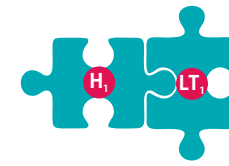

Clarínase-BM

Bilastine 20mg + Montelukast 10mg

TABLETS

The Winning Combo

S-generation antihistamines + CysLTRs inhibitor¹

Synergistic effect in reducing AR symptoms²

No anticholinergic or sedative effects³

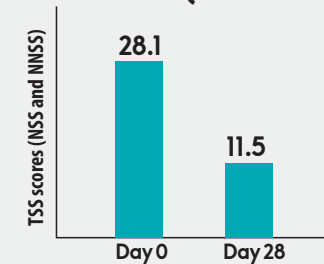

4x

More potent than fexofenadine in reducing microvascular leakage induced by histamine

11x

More potent than cetirizine in inhibiting histamine-induced bronchospasm⁴

Combination ensures significant reduction in The TSS scores (NSS and NNSS)

Indicated in:

Seasonal Allergic Rhinoconjunctivitis

Urticaria Mild-To-Moderate Asthma

Total symptom score (nasal symptom scores (NSS) & non-nasal symptom scores (NNSS))

1. J. Asthma. 2023 May 31;7. doi: 10.1080/02770903.2023.2209175.

NEW STEROID
NEW SAFETY

Cortizox

Deflazacort 6mg **TABLETS**

Protection Unmatched

- Similar effects to prednisone with a less side effect profile
- 6mg of deflazacort has approximately the same anti-inflammatory potency as 5mg prednisolone
- The overall incidence of adverse events in deflazacort recipients 16.5% is lower than with prednisone 20.5% or methylprednisolone 32.7%
- Initial treatment option in children requiring corticosteroid therapy

Indicated in:

ASTHMA

RHEUMATOID ARTHRITIS

SEVERE ALLERGIC REACTIONS

JUVENILE CHRONIC ARTHRITIS

Unlock Skin's
Glam Potential with

Cutiglam-S

FACE WASH Glycolic acid 1.4% + Salicylic Acid 1%

Encapsulated with Active Beads

Variety of ingredients, each with potential clinical benefits, ensuring:

Cleansing

- Sodium Lauryl Ether Sulphate and Decyl Glucoside ensures effective cleansing, helping to remove dirt, oil, and impurities from the skin

Exfoliation

- Glycolic Acid and Salicylic Acid are exfoliants known to aid in the removal of dead skin cells, promoting a smoother complexion and potentially reducing acne

Moisturization

- Sodium Cocoyl Apple Amino Acids, Xylitylglucoside-Anhydroxylitol-Xylitol, and Allantoin contributes to maintain skin hydration and preventing dryness

Acne Care

- Very Berry acne care manages acne

Aesthetic Appeal

- The colored beads (Red, White, Purple, Yellow) provides visual appeal, also offers physical exfoliation

Soothing

- Allantoin and Menthol provides a soothing effect on the skin, which is useful for sensitive or irritated skin

Indicated in:

Atopic Dermatitis | Rosacea

Photoaging | Acne Vulgaris

Occupational Dermatitis | Sensitive Skin

With the advantage of
Active Beads

Helps skin texture, Unclogs pores

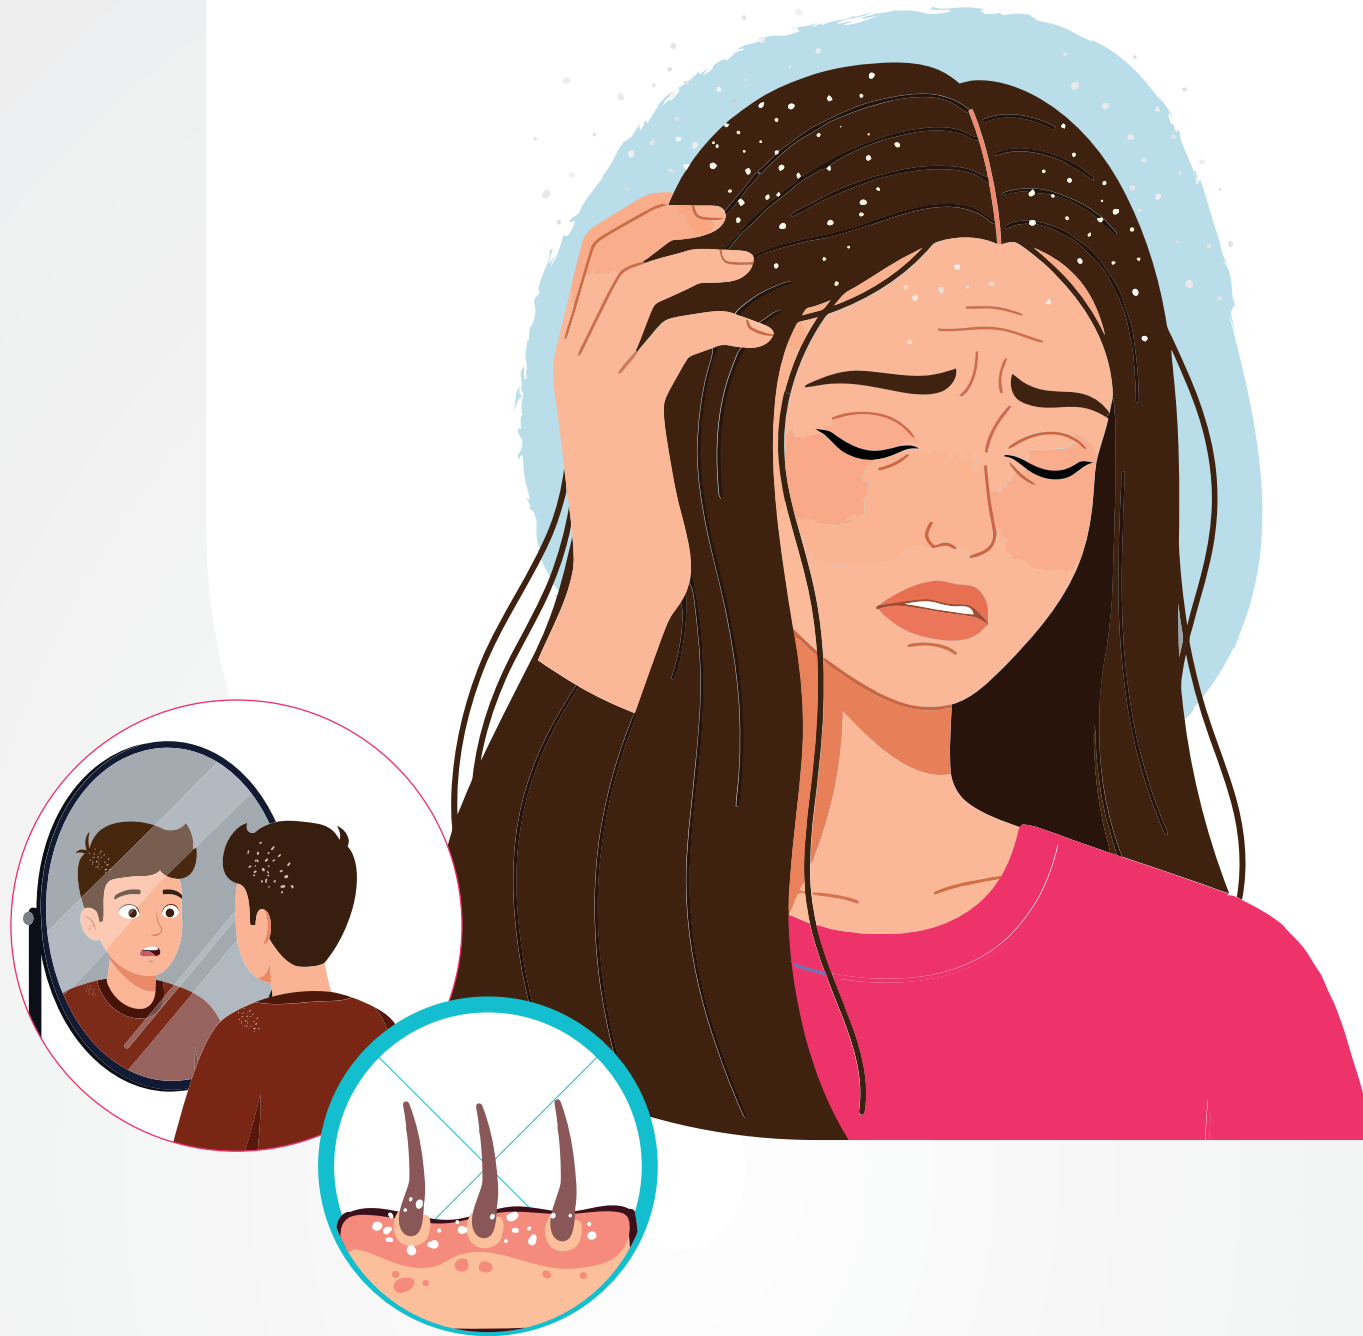

With the advantage of
Glycolic Acid

Reduces sun damage, removes dead skin cells, as well as hydrates skin

With the advantage of
SALICYLIC ACID

Exfoliates skin, penetrates pores, and effectively treats acne while reducing inflammation

Set high Standards,
when it comes to
dandruff

Cutiglós

Ketoconazole 2% w/v +
Zinc Pyrithione 1% w/v

SHAMPOO
with Conditioner Base

Free flowing **Dandruff-free** hair

- Combines the super-effectiveness of a proven ingredient, Ketoconazole with salon-tested gentleness of ZPTO
- Exhibits macroscopically significant stimulatory effect as a hair growth stimulant¹
- Ensures 18% growth in hair density than just 11% with minoxidil + unmedicated shampoo²
- Decreases sebaceous gland area by 19.4%²

1. J Dermatol 32 (4): 243-247, 2005

2. Ketoconazole Shampoo: Effect of Long-Term Use in Androgenic Alopecia

FOR INFECTIONS
THAT PRESENT A
MIXED PICTURE

Cutiwin

CREAM

Beclomethasone Dipropionate 0.025% + Neomycin
Sulphate 0.05% + Clotrimazole 1%

AN ASSAULT THAT IS **MULTIDIRECTIONAL**

Beclomethasone

- An anti-inflammatory and immunosuppressive
- Relieves the symptoms of a flare-up by reducing inflammation, itching and redness

Neomycin

- Active against many gram-negative pathogens

Clotrimazole

- Trusted & Well-tolerated antifungal

OC

Soothe the
web of
mixed infections
with....

DERMIPRO

Itraconazole 1.0%w/w + Ofloxacin 0.75%w/w + **CREAM**
Ornidazole 2.0%w/w + Clobetasol Propionate 0.05%w/w

It's the skin-telligent choice

- Ofloxacin provides broad spectrum coverage against both gram-positive & gram-negative bacteria
- Ornidazole active against anaerobic bacterial infections as well as protozoa
- Itraconazole kills and stops the growth of the fungi by destroying its cell membrane, thereby treats skin infection
- Clobetasol is a potent corticosteroid, exhibits anti-inflammatory, antipruritic & vasoconstrictive properties

Indicated in: _____

Eczema **Dermatitis** **Scalp Psoriasis**

Tinea infections **Bacterial infections**

In steroid
responsive
Dermatoses

Eduivet
Mometasone Furoate 0.1% **CREAM**

Strong on **dermatoses**, gentle on skin

- Potent corticosteroid for dermatitis and psoriasis, which are unresponsive to milder steroids
- 3 to 10 times more powerful than betamethasone on skin
- Side effects half than betamethasone
- Reduces swelling, redness and itching

Indicated in:

Steroid responsive dermatoses **Vitiligo**

Psoriasis **Atopic dermatitis**

Mighty Combo

Enterocef-0

Cefixime 200mg + Ofloxacin 200mg

TABLETS

More cure... lesser relapse

CEFIXIME

- 3rd generation, oral, broad spectrum antibacterial

OFLOXACIN

- Potent quinolone, covers Gm+ve, Gm-ve, aerobes and anaerobes
- Significant improvement in compliance since the number of pills to be taken by the patient is reduced by half
- There are no interactions between the two drugs
- Both the drugs are well tolerated and have been used for several years

Indicated in:

TYPHOID FEVER

URINARY TRACT INFECTION

NOSOCOMIAL INFECTION

INTRA-ABDOMINAL INFECTIONS

RESPIRATORY TRACT INFECTIONS

SKIN AND SKIN STRUCTURE INFECTIONS

A cephalosporin
that works effectively
against wide range
of infections

Cefrodyne **500**

Cefuroxime 500mg

TABLETS

A powerful partner to terminate the infection

- Highly resistant to degradation by β -lactamases
- A five-day short course of cefuroxime axetil is effective in treating acute bronchitis
- Has low incidence of adverse events
- A once-daily dose of 500 mg for 10 days is just as effective as taking amoxicillin-clavulanate 500 mg three times a day for 10 days in treating patients with acute bronchitis

Indicated in

Uncomplicated skin and soft tissue infections

Cystitis

Acute streptococcal tonsillitis and pharyngitis

Acute otitis media

Acute exacerbations of chronic bronchitis

Acute bacterial sinusitis

Treatment of early Lyme disease

Pyelonephritis

In nauseating acidity

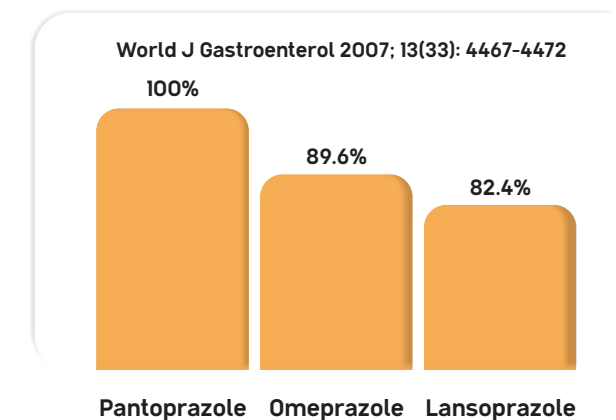

Gastrosec

Pantoprazole 40mg + Domperidone 30mg SR
CAPSULES

DSR

Controls both **nausea** & **heartburn**

- Pantoprazole is significantly effective both for acute and long-term treatment
- Combination effective in older patients with GERD for maintenance
- Domperidone ensures immediate control of nausea and vomiting
- Pantoprazole is more effective in decreasing heartburn than other PPIs

Indicated in:

Erosive Esophagitis

Indigestion & Bloating

Duodenal or Gastric Ulcers

Pathological Hypersecretory Conditions

In the management
of **Pyodermas** & **secondarily**
infected skin lesions

Impycid

Mupirocin 2% OINTMENT

Ensures **speedier healing**

- Effective and safe in the treatment of primary and secondary skin infections¹
- Less adverse effects than systemic antibiotics
- Allows delivery of high drug concentrations to the site of infection²
- Better clinical response than erythromycin³

Indicated in:

IMPETIGO **FURUNCLE**

PYODERMA **OPEN WOUNDS**

1. Br J Clin Pract. 1989 Aug;43(8):284-8

2. Clin Pediatr (Phila). 1992 Sep;31(9):549-53

3. Curr Med Res Opin. 1986;10(5):339-45

In Dermatological
**Fungal
Infections**

Itraford-200

Itraconazole 200mg **CAPSULES**

The Hardworking **Antifungal**

- Orally active triazole antifungal drug
- Potent inhibitor of most human fungal pathogens including Aspergillus sp.
- Has a broader spectrum of activity than fluconazole
- Licensed for use in blastomycosis, sporotrichosis, histoplasmosis, and onychomycosis

Indicated in:

BLASTOMYCOSIS

SPOROTRICHOSIS

HISTOPLASMOSIS

ONYCHOMYCOSIS

ASPERGILLOSIS

CANDIDIASIS

CRYPTOCOCCOSIS

**Complete freedom from
fungal infections with...**

LuliseC

Luliconazole 1% **CREAM**

- **Once daily for 2 weeks successfully resolved the clinical signs and symptoms as well as eradicated the pathological fungi**
- **In tinea pedis, ensures complete clearance (clinical cure and mycological cure) at 4 weeks post-treatment**
- **In tinea cruris, ensures complete clearance (clinical cure and mycological cure) at 3 weeks post-treatment**

Indicated in:

Dermatophytes **Athlete's Foot** **Jock Itch**
Tinea Cruris **Tinea Pedis** **Tinea Corporis**

Lycogrow

Lycopene 10% 5000mcg + Lutein 8% 6000mcg + Beta-carotene 10% 5.17mg
Grape Seed Extract 10mg + Zinc Sulfate 7.5mg + Selenium 70mcg

SOFTGEL CAPSULES

Powerful Antioxidant Formula

- Potent antioxidant, prevents free radical damage to cells caused by reactive oxygen species¹
- Decreases risk of chronic diseases, such as cancer and cardiovascular disease²
- Improves various seminal parameters in idiopathic male infertility
- Prevents asthma that is caused by exercise

Indicated in:

PRE-ECLAMPSIA

PROSTATE CANCER

DIABETES MELLITUS

CARDIOVASCULAR DISEASES

IDIOPATHIC MALE INFERTILITY

1. CMAJ 2000;163:739-744
2. Nutr Clin Care 2002;5:56-65

Fortify health
with...

Neuroactive Nutrients formula

Mecoactivi

Methylcobalamin 1500mcg + ALA 100mg
+ VIT. B6 3mg + Folic acid 1.5mg

SOFT GEL CAPSULES

VITAL TONIC FOR NERVES

Methylcobalamin

- Reduces pain sensation and improves nerve conduction velocity

Alpha Lipoic Acid

- Safe and effective for improving diabetic neuropathy

Vitamin B6

- Responsible for production of neurotransmitter

Folic Acid

- Plays vital role in axonal regeneration

Indicated in:

Anemia

Low back pain

Diabetic Neuropathy

Post-herpetic Neuralgia

Peripheral Neuropathy

First line treatment for painful neuropathy

Mecoactiv^{LP}

CAPSULES

Pregabalin 75mg + Methylcobalamin 750 mcg
+ Alpha Lipoic Acid 100 mg + Pyridoxine HCl 3 mg + Folic Acid 1.5 mg

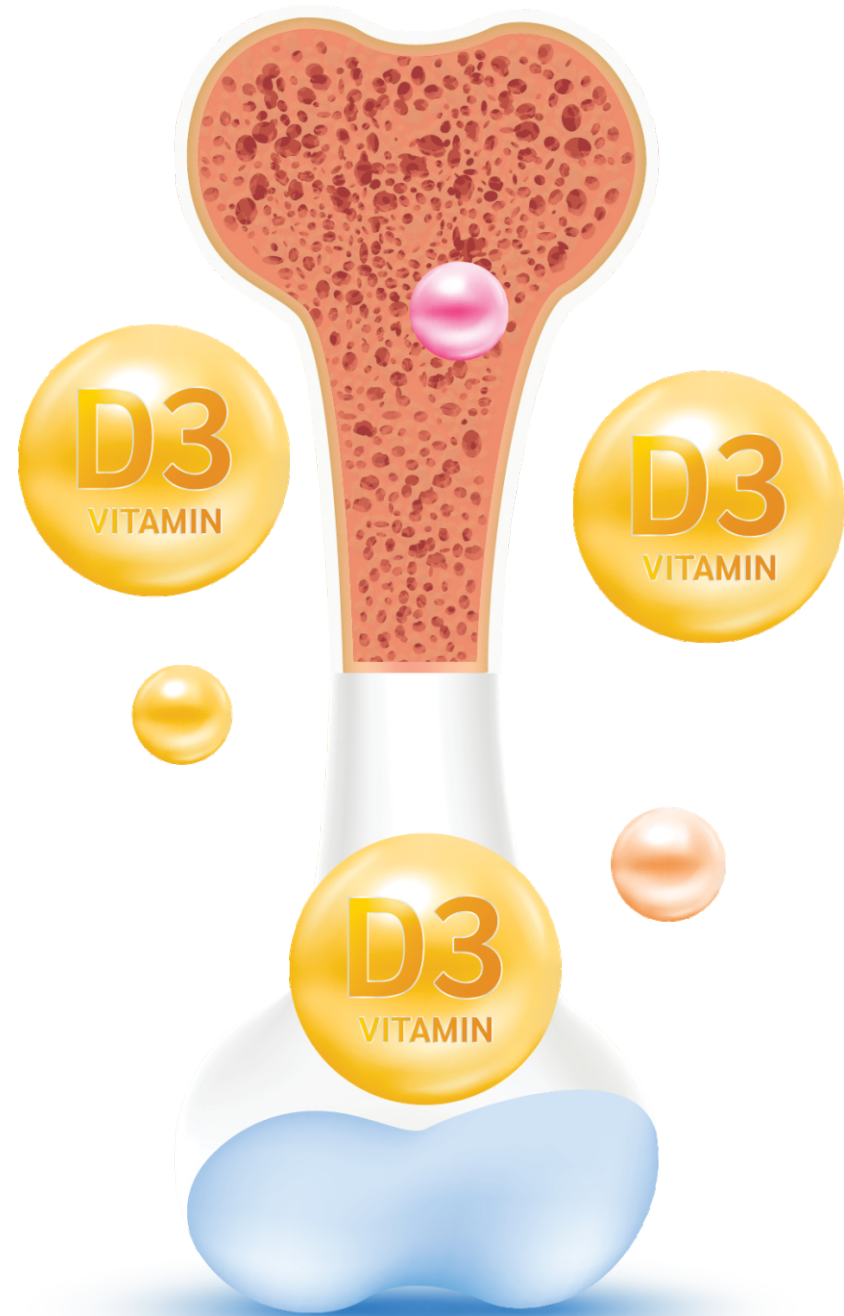

Freedom from crippling pain

- Significantly reduces neuropathic pain
- Improves both the positive and negative symptoms associated with neuropathy¹
- Combination provides pain relief and improves sleep interference²
- Reduces pain, helps repair the nerve function and decreases the oxidative stress³

1. Int J Gen Med. 2013; 6: 413-417

2. Ann Indian Acad Neurol. 2014 Jan-Mar; 17(1): 19-24

3. Med Clin North Am. 1998 Jul; 82(4):909-29

GROWING
EVIDENCES

Osteogrow^{D3}

Cholecalciferol 60000 IU

SACHET

Benefits Beyond Bone

- Improves bone mineral density
- Decreases the risk of falls¹
- Reverses gestational diabetes, pre-eclampsia and IUGR²
- Lowers both blood pressure and heart rate³

Indicated in:

IUGR | OSTEOMALACIA | RICKETS
OSTEOPOROSIS | OSTEOARTHRITIS
MUSCULOSKELETAL PAIN

1. Evidence report/technology assessment (158): 1-235
2. BMJ 346 (mar26 4):f1169-f1169

**IN TREATMENT OF
BACTERIAL INFECTIONS**

Sarcom

Cefpodoxime 200mg + Clavulanate K⁺ 125mg

TABLETS

THE DUAL POWER FOR KNOCKDOWN SUCCESS

- Broad spectrum of antibacterial activity
- Extremely low MIC values against common respiratory pathogens
- Combination provides synergistic activity
- Shows higher clinical cure and improvements in symptoms of LRTI as compared to Cefuroxime
- Provides improvement in safety and efficacy parameters without compromising on the quality of cure

Indicated in:

RTI

ABSCESS

ATHEROMA

FURUNCLE

CARBUNCLE

CELLULITIS

FOR SUCCESS IN THE TREATMENT OF
BACTERIAL INFECTION

ACUTE OTITIS MEDIA, TONSILLITIS AND/OR PHARYNGITIS

Sarcom

Cefpodoxime 50mg + Clavulanate K⁺ 31.25mg

DRY SYRUP

THE DUAL POWER FOR
KNOCKDOWN SUCCESS

- Possesses high stability in the presence of beta-lactamases
- Shows greater tissue penetration than cefixime
- Excellent coverage against gram +ve and -ve pathogens
- An effective, safe, well-tolerated antimicrobial agent for treatment of acute otitis media in children¹

Indicated in:

Pharyngitis

Tonsillitis

CAP

1. Egyptian Pediatric Association Gazette, Volume 64, Issue 2, June 2016, Pages 81-85

 **SUNSHIELD**
WITH SUNVEIL

Sunveil

Octyl Methoxycinnamate 7.5%w/v +
Oxybenzone 3.0%w/v + Avobenzone
3.0%w/v + Zinc Oxide 2.0%w/v Lotion

LOTION

Radiation free Radiant skin

Octyl Methoxycinnamate

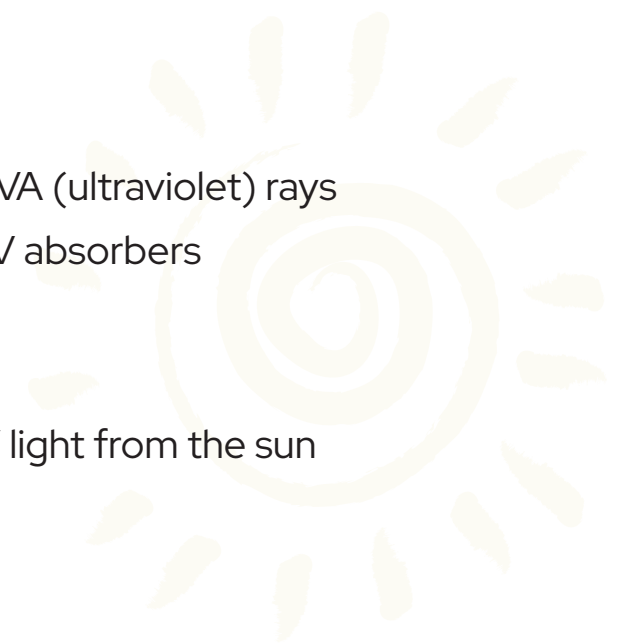

- Protects the skin against UV light-induced DNA alterations
- Reduces appearance of scars

Oxybenzone

- Absorbs UVB and short-wave UVA (ultraviolet) rays
- Protects and augments other UV absorbers

Avobenzone

- Absorbs the full spectrum of UV light from the sun

**PREVENT
& TREAT
FUNGAL
INFECTIONS**

Terbiproz

Terbinafine HCl 250mg

TABLETS

Get tough on candidiasis

- An effective, safe and convenient treatment for tinea pedis¹
- An effective alternative to griseofulvin against *T. tonsurans* tinea capitis²
- Duration of treatment is shorter with terbinafine as compared to placebo³

Indicated in:

Tinea Pedis

Tinea Cruris

Tinea Corporis

Onychomycosis (Toenails)

Onychomycosis (Fingernails)

1. J Eur Acad Dermatol Venereol. 2006 Nov;20(10):1307-13

2. J Am Acad Dermatol. 2008 Jul;59(1):41-54

3. Am J Clin Dermatol. 2007;8(6):357-64

— When —
sneezing takes
away the day

Urtirid

Hydroxyzine Hydrochloride 25mg

TABLETS

Silences allergic rhinitis

- Potent H1 receptor inverse agonist
- Does not produce any clinically significant anticholinergic effects
- Suppresses histamine reactivity more effectively than "second-generation" antihistamines¹

Indicated in:

Allergic rhinitis

Itching

Hyperalgesia

1. Annals of Allergy, Asthma, and Immunology 2009; 102(6):495-499

For
treatment of
seasonal &
perennial allergic
rhinitis

Winal

Desloratadine 5mg

TABLETS

Controls allergy not activity

- Ensures rapid onset with sustained efficacy for 24-hours
- Significantly ameliorates all symptoms of Chronic Idiopathic Urticaria¹
- Produces 2.2 to 2.6-fold greater decrease in pruritus score than placebo²
- Ensures remarkably less Interference with sleep and daily activities

Indicated in:

PERENNIAL ALLERGIC RHINITIS

CHRONIC IDIOPATHIC URTICARIA

SEASONAL ALLERGIC RHINITIS

1. J Am Acad Dermatol 2003 Apr; 48 (4): 535-41

2. Int J Dermatol 2001 Jan; 40 (1): 72-6

Winal-LS

Levosalbutamol 1mg+ Ambroxol 30mg + Guaiphenesin 50mg

SYRUP

Expels mucus, opens airways

Levosalbutamol

- Relaxes the smooth muscles of all airways, thus improves shortness of breath
- Ensures decrease of 60.9% in shortness of breath, 67% in chest tightness, 61.9% in wheeze, 61.1% in cough, and 50% in mucus production¹

Ambroxol

- Promotes mucus clearance, facilitates expectoration and eases productive cough, allowing patients to breathe freely and deeply²

Guaiphenesin

- Relieves chest congestion
- By increasing sputum volume and making sputum less viscous, guaiphenesin facilitates expectoration of retained secretions

Indicated in:

Bronchitis **Emphysema**

Productive Cough **Bronchial Asthma**

1. Indian J Pharmacol. 2011 Nov-Dec; 43(6): 638-643.
2. Expert Opin Drug Metab Toxicol. 4 (8): 1119-29

**Tough on
cough
formula**
